

# THE FUTURE OF SCIENCE POLICY

DECEMBER 3 & 4 | SYMPOSIUM 2024 | PUBLIC HEALTH, AI, CLIMATE

## The Future of U.S. Policy

Top 10 Takeaways from the 2024 Symposium Keynote address with Kei Koizumi from his perspectives as a social scientist, a policy researcher, and a US government science policy official with the White House Office of Science and Technology Policy.

1

Science policy is science for policy, and policy for science.

6

Science policy is about participation.

2

Science policy is a team sport of all kinds of players.

7

Science policy is social, and is about working with lots of people.

3

You should bring all of you to the work of science policy.

8

Science policy is about expanding your toolkit and using policy tools to achieve impact.

4

You should bring to science policy a core knowledge or skill, and look for opportunities to add to it.

9

Science policy is a long game.

5

You can find your own path to science policy, because there's no set path.

10

Science policy can and should change people's lives.
